Catalan: Columna Edicions - 4 ed

Spanish: Espasa - 2 ed

Five girls will become everyday heroines.

A magnificent fresco in the purest style of Louisa May Alcott's *Little Women*, but in 20th century war Barcelona.

A vindication of "the other war", that in which women fought while men were at the front.

“A family, five daughters and a country in turmoil: dreams and love in turbulent times.”

#FamilySaga #5sisters

#WarInTheCity

The emotional story of the Molina family's new life in Barcelona in the midst of the turbulent history of the 20th century.

The Molina family, father, mother and five daughters, leaves their native València to go to Barcelona, to the Sants neighbourhood, where one of the father's brothers, Uncle Miguel, has already been living for some time. The father works in the factory and the mother as a seamstress for a nearby tailor. The five daughters, Júlia, Pilar, Carme, Àngels and little Lola, grow up fully integrated into the

neighbourhood. There they will experience major historical events, such as the advent of the Republic, the outbreak of war, the bombings and the hunger of the post-war period, but also the loves and heartbreaks of their age, the long-awaited dances of the Summer festivities, the film premieres and the life of associations.

Dreams and aspirations come together amidst the hardships of a turbulent time that will put the family and its emotional ties to the test.

Tània Juste

In 2009 she publishes her first novel, an homage to the hopeful times of the Second Spanish Republic, *A flor de pell*, after which comes *Els anys robats*. With *L'hospital dels pobres*, Juste goes a step further and reaches several editions. In 2015 receives the Nèstor Luján Award for the intense story of a family among vineyards, *Temps de família*. After travelling to Argentina in *Passatge al nou món*, she wins the Bertrana Award with *Amor a l'art*, an homage to the shadowed women painters.

With agile, elegant prose, in the best tradition of Cortázar or Mamet. A feast for the most demanding readers.

A chance encounter at a remote gas station, a routine assault with unexpected consequences, the thoughts of a sniper during her long waits... *An Ordinary Woman Returns Home* is a compendium of how the sublime, the unfair, the ironic or the ominous can await any of us, around the corner of our routine lives.

Accurate as only the truth and the best writers know how to be, Jo Alexander lets us look through the keyhole of her characters' daily lives and access that precise moment when their lives take an unexpected turn, passions take justice into their own hands and ordinary, conventional beings, and others not so much, become victims or executioners.

With a masterful sense of rhythm, dialogues, drama and tragedy, Jo Alexander reveals as a brilliant master of the sharpest prose and the darkest stories.

Almost all the victims are men under 20, all the murderers are women and the reader knows them from the first page.

Written with the usual sensitivity and masterful hand of the author of *The Memory of the Tree*, sold to 20 languages.

“ **The subtle portrait of a boy not allowed to be a child, and his daily struggle to chase away fears and loneliness. Indeed, the story of many children who carry big responsibilities too soon.** ”

Maic is a boy who has to grow up before his time: while he has to take care of his brother, his mother spends the day away from home trying to find the perfect father. Thus, he has a non-father who is only conspicuous by his absence, and a grandmother who went to live far away and now only calls him on his birthday. All this makes Maic develop whirlpools in his belly button, so unbearable that he thinks he will break in half. His distraction is his neighbors on the stairs: Mrs. Pillows, for example, who gives soft and warm hugs, or Mr. and Mrs. Stories, who are the only ones who listen to him. All of them, each in their own way, save his lonely afternoons, while he waits for his mother to return, for his grandmother to call, for his brother to be there for a while, for his non-father to suddenly appear. Maic’s mother is

looking for the perfect father, and he hopes she’ll find him soon because being the man of the house is hard to bear.

“ **The main protagonist that captivate the reader from the start. And the story moves thanks also to how the chapters have been structured and how the rest of the characters enter the scene.** ”

Praises:

«With maximum ambition, Vallès manages to deeply express the intimate nature of the silences of everyday life» (*El País*).

«With her own vision, not a fan of trends, who goes her own way. Her sensitivity and tenderness are born from a structured and precise mind» (*VilaWeb*).

Excerpt from UK Reading Report (by Laura McGloughlin)

“ *La memòria de l'arbre* is a **beautifully-written, poignant** novel about the **relationship** between a boy and his grandfather, **told in a series of vignettes**, which leaves a **lasting impression on the reader**.

The novel is **artfully constructed as a series of memories** and glimpses into one small boy's world as it changes around him, often **evocative** and quietly **devastating**. The novel's true strength, however, lies in the writing. **Vallès' style**

is **deceptively simple yet effective**. Vallès realises Jan's voice **brilliantly** -he is bright and sensitive to the moods of the adults around him, and his narration **never feels contrived**. I loved this novel and it **stayed with me for days** after I finished reading it. Vallès manages to evoke genuine feeling in the reader -the **depiction of the relationship between Jan and his grandfather brought me to tears** more than once. Its **universal themes** of love and memory, coupled with the increasingly topical subject matter of dementia, make this a very **universal novel**.

An homage to E. Allan Poe: after having solved the crimes of the Morgue, detective Dupin flees Paris due to personal matters and ends up in Barcelona where he is immersed in the case of the killer of books.

In 1836 the Gazzete des Tribunaux of Paris published the first news about the case and a young Gustave Flaubert made it the plot of Bibliomania, one of his early stories.

The case of the “murderous bookseller of Barcelona”.

April 6, 1840. After having solved some of the most famous crimes in Europe, the famous detective Auguste Dupin arrives in Barcelona to investigate a case that directly involves him and that is related to the main passion of his life: books.

A dead bookseller has been found, they say they killed him to steal a particular book from him, and the title sets off all the investigator's alarms. To kill for a book? Today it seems impossible, but one of the most famous murderers in the history of Barcelona killed for books.

Here's the story of Barcelona's first serial killer. The country's first “media” crime. And the great adventure of a memorable character. Auguste Dupin faces the case of his life in a city that boils with bullies, petty thieves and booksellers who seem to have been taken out of a film noir.

A tribute to Edgar Allan Poe through a serial killer of booksellers in 19th century Barcelona.

“The book follows the trail of a serial killer bookseller, a ‘fake news’ ‘avant la lettre’, which a century later would captivate authors such as Flaubert.”

El Periódico

“The novel evokes the Victorian atmosphere of terror of the times of Jack the Ripper, in those gloomy London and Paris so attached to our imagination.”

Núvol

“An mystery novel starring the first detective in history, Auguste Dupin, devised by Edgar Allan Poe.”

Ara Llegim

“A mix of the first detective in literature, created by E. Allan Poe, Barcelona's first serial killer, one of the first fake in Barcelona's chronicle and a literary city par excellence like Barcelona.”

Vilaweb

Historian and writer who has built an unclassifiable and multifaceted novelistic corpus widely awarded. His first works live halfway between the description of manners, absurd humor and false erudition and novels by then are a parody of the stereotypes of the crime novel transferred to rural environments, presented with a slyness that borders on the sarcasm. . Afterwards, he sets his thrillers in contemporary Andorra with character Andreu Boix and writes other novels with more diverse approaches but with a common denominator: a fanciful re-election of the past.

A hilarious rural noir set in a Pyrenean village.

Nothing ever happens in Llobarça, a tiny mountain town near the border with Somorra. Tomàs takes care of his cows, his silent uncle, his formal girlfriend, dodging the collapse of a microcosm condemned to disappearance. Nothing ever happens, until something happens that disturbs such placidity: there are strange movements in an old smugglers track. From then on, everything changes. Tomàs ends up putting his cows aside for a few days and begins a new vital facet dealing with traffickers of the highest rank, corrupt policemen and journalists who are too gossipy to free the girl he loves and who, unfortunately, is not his girl and to clarify, incidentally, a case that has brought too bad a mood to the town.

A perfect, round book. [Gurt is] a virtuoso of the genre. *El Mundo*

Gurter than ever, these stories display the overwhelming force of Gurt’s always surprising literary universe.

Heroes of anxiety and slaves of love, absent mothers, couples starting out or crashing into uncertainty, and marriages on the verge of collapsing parade through the pages of this book.

Gurt’s characters do not know where they are going or how to get to their destination, and at the same time they are terrified but euphoric at the possibilities of prodigious worlds that arise from destruction. With addictive prose, a vivid language and a tone that oscillates between irony and intimate confession, Gurt invites us to enter her universe and builds a unique tableau of human relationships. Fourteen stories about an incertitude that is both terrifying and full of possibilities.

Set 2.000 years ago near the frontier between the Empire of the south and the barbarians of the north, *Junil* tells the libertarian utopia of a group of people who walk in search of a better future, with imagination and the power of language as tools capable of breaking down any wall.

For little Junil, life turns upside down when her family dies in a fire. Only she and her father, a ruthless cruel man, survive, and they try to rebuild life in the city of Nyala. A second disaster will force Junil to leave again, this time not to rebuild her life but to save it.

She leaves the limits of the empire not as the helpless girl she was but as a clever and strongest young woman who, surprisingly enough, can read. In the company of three runaway slaves - a maimed, an old gladiator and a scholarly and quirky custodian of the goddess Minerva-, she undertakes a journey towards a land where slavery does not exist and learns to grope through an unknown world where gods and languages vary. This life journey is not only a scape but also follows the irresistible lure of the verses of Ovid, the exiled poet that feeds her soul day after day.

A coming-of-age short novel compared to *Call Me By Your Name* and set in a Mallorca Summer of the late 90s: childhoods that end, own mistakes, first loves and lasting friendships.

A discovery journey: the 90ies, Summer, Mallorca, bicycles, monsters, first loves, divorces, tourists... and a teenager trying to figure out what all this life is about. A local story to which everyone can feel identified.

The day a dead whale appears on the beach everything changes in the life of Martí, a fourteen-year-old boy who during that Summer must begin to think about himself after his parents divorce. With his friend Bibi they tour the town from end to end and, after a motorcycle accident almost kills Franc, Bibi's brother, Martí will work secretly from his parents in a supermarket. Everything gets complicated in a story of secret ambitions, buried traumas and lies that get bigger.

SUCCESS AND FAILURE BASED ON THE PROFILE OF ISMAEL SMITH, ONE OF THE MOST QUEER, GENUINE AND EXCEPTIONAL FIGURES IN ARTISTIC HERITAGE.

From the Barcelona of 1886 to the New York of 1972, the novel *Les altures* (*The Heights*) traces the life of Ismael Smith, painter, sculptor and engraver and a brilliant promise of Catalan art at the beginning of the 20th century. Smith sought success among the wealthy families of turn-of-the-century New York but was banished a short time later by the bourgeoisie who had exalted him. Dark and tormented, Ismael Smith ran into public misunderstanding but had a lucidity that briefly brought him fame.

The choral portrait of a life crossed by misunderstanding and by notions of success and failure in the world of art.

THE NARRATOR WALKS THE CITY ON A SATURDAY NIGHT.

In this odyssey back home, the voice that speaks to us in first person –and makes us laugh at every step– pretends to think out loud, to monologue for no one and dissects the city's hodgepodge with intelligence, insight and irony.

A Barcelona that is loved and hated at the same time, with the Olympic Games, the Forum of Cultures, the squatters, the rising prices, the construction bubble, people who pass by and the streets, that remain. The city is a hive of passions. Some love it. Others would burn it.

In the manner of Nietzsche's wandering thoughts, Adrià Pujol narrates the twelve hours in which his self walks through a nocturnal Barcelona. But unlike the protagonist of Joyce's *Ulysses*, Pujol's thoughts are a symbolic ascent in which life, despite the blows, is vindicated with an explosive force: dynamism, blood, joy, light and, above all, literature..

“A brilliant text capable of integrating small mirror games with the immediate present and future?” *El País*

“An essay that seeks an answer from science to a classic philosophical question.” *Ara*

Humans have a unique ability to understand our existence. Knowing our genetic, biochemical and cellular characteristics, in the context of history, culture and evolution, can help us better understand ourselves as a species and answer, from scientific methodology, some of the questions that philosophy has traditionally raised.

In this essay, Macip proposes to analyze the human condition through what he calls “rationalist biohumanism”, a tool that should allow us to transgress biological determinism in order to achieve a life in a dignified and just society.

Salvador Macip takes up “rationalist biohumanism” concept as a method to analyze the impact of these two determining moments of our existence. He proposes to understand their mechanisms and, thus, to be able to control and modify them to build better societies. In this essay the author talks about sex, gender, uncertainty. And also about family, monogamy, patriarchy, immigration and love and hate all from the perspective of what biology says, but also what society demands. And he focuses on what is the final part of life, aging, of which he is, as a doctor, one of the great experts. All them topics that in recent times have gained notable prominence when it comes to defining and organizing our individual and group life.

Spanish

All we know about living longer and better.

What do we currently know about aging and what can we do to age better?

Humanity has been trying to beat the passage of time since forever. Mythology and fiction are full of characters looking for a way not to age and become immortal. But it has not been until the 21st century when science has advanced enough for this dream to become a reality.

We finally understand why our bodies degrade with age and, thanks to this, we have begun to develop tools that act on the biological mechanisms of aging. Has science discovered the secret of eternal life? Is it possible to keep young forever?

In this book, doctors Salvador Macip and Manel Esteller review what is currently known about the aging process and tell us what we can do to stop it, from interventions that have already proved their effect, to treatments that in a future, perhaps not so distant, could make us immortal.

“

Living well for many years also depends on you.

Our body is not an inexhaustible machine. It needs daily maintenance: good nutrition to feed the tissues and generate energy, restorative rest for organs, muscle mass to support bones or sufficient vitamins to detoxify. But we have not been explained that, despite having excellent genetics, a vast majority of diseases and ailments can be prevented with a healthy lifestyle.

Step by step to improve physical, mental and social well-being.

In this book, Maria Puntí shares with us the essential pillars for caring for our health, providing us with the **tools to improve our quality of life and prevent the appearance of diseases.** Because the goal should not be to age as late as possible, but as well as possible.

Catalan

A narrative nonfiction portraying the epiphanic moment that Picasso experienced in the Summer of 1906 in Gósol where he met Hermínia, the beautiful and unknown woman whom he obsessively portrayed and never forgot.

Picasso In the Pyreiness is the fictionalized chronicle of the birth of the Cubist revolution.

One of the little unknown and most relevant periods in the career of Picasso.

1906 is a turning point and this is the chronicle.

Les demoiselles d'Avignon were born in Paris but conceived in Gósol.

Together with Fernande Olivier, Picasso spent the 1906 Summer in this rustic setting, Gósol, becoming fascinated by the authenticity of the traditions, the territory and the people, as well as by the enigmatic Hermínia, whom he would draw obsessively.

This extremely fruitful stay represented for Picasso a radical journey through time and of self-discovery, which he started as a nineteenth-century painter and from which he emerged already inoculated with the "virus" of modernity.

11 weeks that changed the History of Art.

Blocked, in his first creative crisis, barely 24 years old and leaving unfinished the portrait of Gertrude Stein, Pablo Picasso left Paris in May 1906 and from Barcelona he undertook an arduous journey, which included eight hours of walking on mules, until the small inhospitable pre-Pyreanean mountain town of Gósol (Lleida). He spent only eleven weeks but they were capital for his career as it was then that he made the leap into modernity.

In the autumn of 1906, back in Paris, Picasso made the first sketches of *Les demoiselles d'Avignon*, the foundation work of cubism in painting. At the beginning of the XXth century, for someone who lived with one foot in Paris and the other in Barcelona, this was a radical journey through time to an archaic oasis. But for Picasso meant the search for a new artistic form that would break with the past.

Moreover, Picasso found in the women of Gósol a very special source of inspiration, and Rubio goes further in his reasearch and portrays the enigmatic woman that stole Picasso's heart, Hermínia, an obsession for him.

This transformative trip was so significant that during his stay he even signed all his works as Pau de Gósol.

Eduard Niubó

Eduard Niubó Prat has travelled widely and has been to many of the countries which appear in his first book, *The Geography of Oblivion*. Places like Alaska, Canada, Iceland and Svalbard have made it possible for him to get know the Arctic well. He is also familiar with some of the great mountain ranges, such as the Andes, the Himalayas, the Alps and the Pamir mountains, and has made long journeys across every inhabited continent. His interest in literature, travel and history led him to write *The Geography of Oblivion*, a book about explorers and adventurers silenced by history.

The history of geographical discoveries is full of explorers who we barely know, but who have changed our view of the world. Many of these explorers, despite the amazing adventures they lived, are often forgotten under the account of the conquerors who have followed them, or in the shadow of their leaders.

But from the oldest maps of prehistory to lost expeditions, the discovery of the world is full of castaways, sailors, fugitives... all modest people who urged to be rescued before they ended up drowning under the tide of the official story. Avoiding established clichés, *The Geography of Oblivion* takes us on the path of the pioneers who have opened the door to knowledge of the world.

An exciting book about the limitations of human capacity, curiosity, challenges, the desire for discovery, the desire that moves people to go further. The protagonists of *The Geography of Oblivion* often cross the red line that separates life from death. At the edges of the world, there are people who play it all or nothing. What motivates people from around the world and in every era to venture beyond their known world?

"A history book written with literary ambition: how many novels could come out of it?"

VILAWEB, TINA VALLÈS

- Great geographical discoveries from a new perspective.

- Explorers and adventurers silenced by history.

- Full of a fascinating people who deserve their place but are rarely mentioned: anonymous sailors on the great expeditions, non-Western discoverers, shipwrecked people, whalers, fugitives...

Showing body hair is not a simple harmless option. Not waxing and showing it openly is usually a political decision.

Razors, tweezers, wax and creams: these are the tools for the initiation rites that signal the passage from girl to woman. Hair is no longer a sign of joy but a battleground of cosmetic surgery. This short book dismantles preconceived ideas about the supposed benefits of body hair removing and analyzes the social penalty that comes with showing body hair as it is born. With clarity and courage, Olid exposes the contradictions and hidden costs of hair removal, and issues a rousing call to women everywhere to set themselves free from the urge to please everyone else and to focus, instead, on what pleases them.

“

BEL OLID EXPOSES WITH CLARITY AND COURAGE NOT ONLY THE CONTRADICTIONS OF WOMEN'S HAIR REMOVING, BUT ALSO EVERYTHING THAT ENTAILS OF SOCIAL SUBMISSION, OBEDIENCE TO DEMANDING MARKET REGULATIONS AND THE PERSONAL INSECURITY OF SO MANY WOMEN.

WITH DATA IN HAND, WE DISCOVER THAT THE CHOICE IS NOT FREE AND THAT SHOWING OR NOT SHOWING BODY HAIR IS NOT A SIMPLE HARMLESS OPTION.

“What we are (not) talking about when we talk about ~~sex~~ sexualities. Fresh, brave, straight, clear.”

We live sexualities conditioned by expectations, assumptions and taboos that make it difficult for us to listen to ourselves. Dare to forget what “should be” to go into “what makes you vibrate”. Explore with *Follem?* the paths that can guide us to more human sexualities, more pleasant relationships.

- ✓ A book *not* about sex *but* new sexualities.
- ✓ Unlearn to be able to learn again the new realities.
- ✓ A necessary book to read, to gift, to discuss, to think about.
- ✓ Olid explains possible sexualities without judgment, with knowledge and from a non-heterosexual point of view.
- ✓ The emphasis of the book is on the pleasures that sex provides rather than the dangers.
- ✓ Olid does not avoid a harsh chapter on rape and non-consent. But the work is above all a song to life and self-knowledge.

Olid's latest works mirror the gender, identity and sexuality discussion with a brave and critical analysis. #Debate #Fight

#KeyConcepts

Feminism is more alive and more necessary than ever because discrimination against women has become more subtle and difficult to detect but keeps its paralyzing power.

Bel Olid shares the key concepts of the current feminist struggle in an intelligent, radical and sometimes surprising way.

The most defining feature of this brave and brilliant author is that their literature never flees conflict, either intimate or collective.

My fantasy is a tommy gun. When I go down the street and a stranger tells me something: tommy gun. When the on duty politician makes the on duty sexist comment: tommy gun. When the bishop explains in the newspapers how is that we don't want to be raped, if we ask for free and affordable abortion: tommy gun. When in school it is valued to infinity that the father of the creatures attend the meetings, but it is assumed the attendance of mothers: tommy gun. When I get kicked out of work because I'm pregnant: tommy gun. When they tell me not to be exalted, that there is no such thing: tommy gun. It might seem like a violent fantasy, but it is not; it's a fantasy of self-defense.

Vicent Partal

Journalist and director of Vilaweb, the most important digital newspaper in Catalan. He has worked in several media and has been a correspondent in countries in conflict from where he has lived crucial moments in history, from the fall of the Wall to the war of the Balkans or the revolt of students in Beijing. He has published several monographs on NATO and on nationalisms for which he has received numerous awards. He is president of the European Journalism Center based in Maastricht.

[\(Complete profile of the author here\)](#)

In Mexico the border is a library, in Lixouri the radio, the light in Hong Kong, a drink in Tallin, in Tiraspol a notebook, in Zagreb a night train, in Belfast were words and Berlin was the total border.

Borders are key points of cultural confluence and political conflict, of linguistic mixture and of historical transformation. They are a magnificent social phenomenon and inexhaustible reading. Following the trace of these lines drawn on the maps, we delve into the history of their towns in a privileged way. Partal has lived endless experiences and moments of great journalistic significance, and here he leaves a good example of it. Thirty-seven chapters where we'll attend the division of the Soviet Union, the ravages of the Balkan war, the birth of republics and the revival of officially extinct languages.

A fascinating journey.

An incredibly lucid and openminded approach on borders.

Partal is one of the journalists with more experience and in deep knowledge about geopolitics and border spaces.

Contrary to what people usually think, and against what states want us to think, borders are always a human invention and not even the most apparently natural ones are so.

Key information:

1. The whole book is a **narrative non fiction** that can be published as it is.
2. However, **Foreword & Epilogue can be published together as a very short approach to the borders question.**
3. According to the publisher needs, the author is ready to **rewrite the Epilogue and/or update on Ukraine.**

Asterisc Agents & Awards

Asterisc Agents was born in 2016 from the infatigable curiosity of two literary agents dynamic in mind and innovative in spirit.

Since then, Asterisc has grown with permanent attention to detail without losing the essence that drives the project, and convinced that only with tenacious work, personal deferential contact and the tireless will of growth and improvement, any goal set can be reached.

Today, Asterisc Agents already has a carefully selected list of authors and foreign representations that consolidate and project the

agency to the international market. The authors who have trusted the agency have received awards and recognitions of first national level and their works do travel around the world, where they are being discovered by new readers from other latitudes. Attendance to international salons and book fairs (London, Guadalajara, Frankfurt, Bologna, Turin...) is the way for us to share our books and keep doing what we love and know how to do: to spread the passion for good stories next to its authors, the publishers who publish them and the readers who read them.
